OUR PROFILE

Mendel Academy is a family-owned startup offering a digital education platform for medical school graduates. Founded in 2015, Mendel Academy offers an adaptive live-online course for students to prepare for highly specialized licensure exams.

Here at Mendel Academy we have been providing personalized coaching to over 1000 medical students for licensure exams with special focus on the USMLEs; resulting in over 90% students matching into top residency programs.

THE VISION

Our vision at Mendel Academy is to provide an accessible digital coaching platform and community for Medical Students around the world, where they can unlock their true potential, without having a barrier of cost or location.
